

MACHINE FOR MILK TESTING CONSIDERED

COUNCIL DEFERS ACTION ON MATTER OF BUYING ONE UNTIL SUMMER.

RECEIVED BIDS ON SEWER WORK

Council Adjourned Until Thursday, When Contract Will Be Let

At the meeting of the city council this morning the bids on the Ottawa avenue sewer were received and opened. Four firms submitted figures, each on size of tile to be used as well as the catch basins, manholes and rock excavation being bid on separately. The bids will be left on file 48 hours before the contract is awarded and in the meantime the city clerk will compute the total bids from figures submitted. The contractors submitting bids were Gunt & Graham, Freeport; F. E. Kaminski, Watertown, Wis.; C. F. Nesbit and Rink & Schnell, Dixon. There was little difference in figures on the tile work but considerable on the rock excavation.

An ordinance was passed for the subdivision of the assessment for the brick pavement on North Crawford avenue in front of lot 4 and the west 12 feet of lot 5 in block 31. The land has been divided and is now owned by Chas. W. Burkett and Leonard Whipple.

Commissioner VanBiber brought up the matter of the purchase of a Babcock milk tester by the city. By this tester the proportion of butter fat and the impurities in the milk may be detected. Several large milk producers have such testers for their own use. It is during warm weather that most complaint is heard as to the quality of milk and the matter of the purchase of a tester was deferred for the present.

RAINEY LECTURE WAS MASTERFUL EFFORT

SECOND NUMBER OF LYCEUM COURSE PLEASED LARGE AUDIENCE.

A large audience was greatly interested and pleased with the lecture on "The Man Who Can," which was delivered at the opera house Monday evening by Dr. William Rainey Bennett—the second number of the Dixon Lyceum association's course. Mr. Rainey's lecture abounded in wisdom, but he kept his audience at perfect ease and contentment with his wit, which sparkled through the address. He urged everyone to a determination to succeed and a spirit of good will toward all while seeking the goal of that determination.

The next number of the course will be given at the opera house next Monday evening when the Beulah Buck Ladies' Quartet, one of the star numbers of the course, will appear. One of the members of the quartet, Miss Isabel Willey, is a former Sterling young lady, having taught in the public schools in that city.

Mr. Reed was resting as easily as could be expected today.

William Hintz left this morning on a commercial trip to DeKalb county.

Banker Begins As Day Laborer, Job As Cement Mixer

J. Bradley Fuller, Former Head Of Winslow Bank Gets \$2 Per Day

Freeport, Ill., Nov. 9.—J. Bradley Fuller, former leading citizen of Winslow, Ill., whose investments of the funds of the private bank of Fuller & Son caused the collapse of the institution, has gone to work as a common laborer. He is employed by a manufacturer of cement blocks and toils ten hours a day for a wage of \$2.

Dressed in overalls, the former banker handles wheelbarrow and shovel as effectively as if he had been all his life used to manual labor.

Fuller is determined to "make good," he tells his townspeople, and when he could find no more suitable employment he willingly accepted the job offered him by an old friend.

An audit of the books on the Fuller bank shows liabilities totaling \$168,647, with assets of \$129,935, though some of the latter are of uncertain value. Creditors are hoping for a settlement at approximately 70 cents on the dollar.

It is thought the board will remain in session over Thursday.

FAILED BANK IS ROASTED

Comptroller of Currency Tells Why Georgia Institution Went Under.

Washington, Nov. 9.—The comptroller of the currency has issued this statement: "First National Bank of Toccoa, Ga., capital \$75,000, surplus \$30,000, deposits about \$150,000, has closed its doors. Its failure is due to continued mismanagement, the tying up of its capital and deposits in loans to its president, vice president, cashier and other directors and enterprises in which these officers and directors are interested. Other irregularities include excessive borrowings, unlawful real estate loans and other violations of the national bank act against which the bank has been repeatedly warned by this office."

DESPITE OFFICIAL REASSURANCES BRITONS WORRIED BY INJURY TO KING.

KING GEORGE V

[Despite reassuring reports by the physicians in attendance on King George V of England, who was injured by the fall of his horse with himself when at the front in France, the British public manifested uneasiness. The London Lancet, the world famous medical authority, said it was in a position to state with authority that the accident to King George resulted in severe shock, much bruising and pain. "But there has been no more serious outcome to his dangerous mishap," added the Lancet. "There is no evidence whatever of any visceral lesion or any fracture. Although his majesty is still confined to bed this is necessitated solely by the muscular stiffness following the bruising."]

FIRE ON LINER IS OUT; CONTINUES WAY

ROCHEMBAU'S CAPTAIN DOES NOT REPORT CAUSE OF FIRE IN THE HOLD.

FORTY AMERICANS ON BOARD

(Associated Press)

New York, Nov. 9.—The steamship Rochembeau, which yesterday was reported as having put into Halifax with fire in her hold, is proceeding to Bordeaux, France, her destination. The fire has been extinguished, according to a wireless from Capt. Jupam, which did not indicate the cause of the blaze. The Rochembeau left New York Saturday with 421 passengers, of whom forty were Americans, and a large cargo of war supplies.

Chicago, Nov. 9.—The French ship Rochembeau, a quadruple screw steamer, one of the most popular in the Atlantic trade since the outbreak of war, was reported with fire in her hold, and within less than a day of that port, General Agent of the French line received a message from Captain Jupam of the Rochembeau at 3:30 o'clock in the morning.

"We are fighting fire in the reserve hold. If we do not succeed we will put into Halifax. Everything all right. No danger."

Think It Spontaneous Combustion.

Mr. Faguet said that he believed it probably was caused by spontaneous combustion, and that in all probability few persons aboard the Rochembeau outside of Captain Jupam and his officers knew of the existence of the fire. It had happened before on French and other liners that a bunker fire had been in existence a day or more and had been extinguished without passengers knowing anything about it until afterward. He was inclined to believe that the captain was on his way to Bordeaux. The concluding sentence of the message indicated that the fire was not to be regarded as serious.

CARRIED WAR MATERIAL.

The Rochembeau carries a cargo of about 9,000 tons, including a large quantity of war material. In the latter are four boxes of auto trucks, 2,541 cases of cartridges, 1,000 cases of empty cartridges, 20 cases of machine guns, 511 bundles of steel, 300 cases of brass and copper rods, 95 cases of copper rings, 7,200 reels of barbed wire, 254 flasks of quick silver and a large number of pumping and other machines for use in trenches and factories.

Yser, Former Dacia Helping Passengers Sunk By Germans

Ship Was Seized By French And Prize Court Ordered Her Sold

(Associated Press)

Algiers, Algiers, Nov. 9.—The French ship Yser, formerly the Dacia, as which she was seized by a French cruiser last February while carrying cotton from the United States to Germany, has been torpedoed by a German submarine.

The ship was torpedoed while carrying passengers from a lost Italian steamer, but crew and passengers landed safely. The Dacia belonged to the Hamburg-American line and after the outbreak of hostilities was purchased by Edward Breitung, her registry was changed and she became an American ship. The Dacia case is in a state of appeal from the prize court decision which sold her to a Frenchman who renamed her Yser.

START HEARING ON NINTH ASSESSMENT

JUDGE TODAY HEARD THE COMPLAINTS OF HALF DOZEN SWAMP LANDOWNERS

The hearing of objections against the assessment roll in the ninth assessment asked by the commissioners of the Inlet drainage district was taken up in county court at 9 a. m. today before a jury. The objections of half a dozen land owners were heard and there remains about as many to be heard tomorrow. The commissioners have recast the roll since first filing it in court and modifications have been made in instances where objections have been made. It is thought that by Thursday the objections of all land owners will have been heard and the jury will then be ready to view the land and pass on objections. It is not likely they will go to view the land before the first of next week as it will require several days to cover the district.

GEORGE FITCH
Author of "At Good Old Siwash"

THE PRESIDENT.

The President of the United States is a good and wise man, who is elected by the people to give tone to politics in Washington. He is popularly supposed to run the country, too, but he doesn't. He merely looks over the train sheets.

The President serves four years. Some of the most durable have served eight years. He gets \$75,000 a year and lives in the White House, a large mansion completely surrounded by newspaper reporters. He doesn't get his salary for living in the White House, but it is said to be worth the money.

The President usually rises to his high office from obscurity, and goes back there promptly as soon as his term is over. Only native-born Americans can be President. This discourages immigrants so that they rarely go into politics. They go into business instead and become aldermen.

It is the duty of the president to veto all bills passed by the opposition, to see that the Cabinet chairs are freshly filled each morning, and to eat whatever is set before him, no matter how badly the banquet committee has fallen down. He must fit a Pullman car berth neatly, must enjoy seeing

his features warped all out of shape by cartoonists, and must give reporters and writers any desired details about his way of shaving or his brand of socks or the way in which he ties his shoes. The President is public property, and is never allowed to forget the fact. The public is very hard on Presidents too, just as it is on the rest of its property. Very few Presidents live very long after their escape.

The President works very hard and is worked even more heartlessly. In former days, executives were very poor house-cleaners, but nowadays the President who didn't clean up at least a department of government a week would be accused of incredible carelessness. The chief exercises of Presidents are shaking hands with office seekers. They are of various denominations. Some are Episcopalians, some Presbyterians and one or two have been thirty-cent pieces. Candidates for the Presidency are chosen by influential politicians in a national yell Marathon held every four years. The candidate getting the longest yell is nominated. It is customary to elect Republican Presidents.

The Presidents have all been noble, honest men. They are even grander and nobler after death, for then the opposition admits it. If a President works hard and makes good, he gets into the hall of fame, and has 100,000 namesakes. Thus far, however, no namesake has ever become President.

CARRY STOMACH JOY IN YOUR VEST POCKET

Rowland Bros. Have Such Faith In This Dyspepsia Remedy That They Guarantee It.

One of the greatest successes in the sale of medicine has been achieved by Mi-o-na, the standard dyspepsia remedy, and its sale is increasing so rapidly that Rowland Bros., the popular druggists, have hard work to keep a stock on hand. It is very popular with bankers, ministers, lawyers and others whose business or profession keeps them closely confined, while those who have brought on indigestion through irregular eating, worry, or other causes, have found relief in this reliable remedy.

Mi-o-na comes in tablet form and is sold in a metal box especially designed for convenience in carrying the medicine in the pocket or purse. It is pleasant to take, gives quick relief and should help any case no matter how long a standing. This remedy has been so uniformly successful that Rowland Bros. will in future sell Mi-o-na under a positive guarantee to refund the money should it not prove entirely satisfactory.

Both falls were accomplished with double bar arm holds. Gardner won the preliminary from Holmes in straight falls.

ROCHAMBEAU IS ON-FIRE AT SEA

Radio Tells of Blaze in French Liner's Bunkers.

VESSEL CARRIES 721 PERSONS

Four Hundred and Twenty-one Are Passengers—Many Americans Are Aboard—New York Agent Thinks Fire Accidental—Vessel Not in Danger—May Continue Voyage.

Continued from Page 14

Mr. Faguet said that every bit of the Rochambeau's cargo had been inspected and great care taken that no body but persons known to officers and crew was permitted aboard while the ship was loading. Of course, it was possible that something that might have caused the bunker fire might have been put in the coal, but Mr. Faguet was inclined to doubt it.

Mr. Faguet denied rumors about the bursting of sugar bags being hoisted aboard the Rochambeau disclosing fire bombs. Recent fires on ships leaving this port for ports of the allies had a tendency to strengthen the suspicion that the fire aboard the Rochambeau might have been caused by plotters.

Has 721 Persons Aboard.

The Rochambeau has aboard 721 persons, including 171 cabin and 250 steerage passengers. The rest of the ship's company is made up of officers and crew. Thirty Americans are among the cabin passengers. Henri La Franco, an officer of the French aviation corps who was wounded in the Argonne and came here to purchase aeroplanes for his government and recuperate, is going home by the Rochambeau.

The Rochambeau is equipped with the latest fire fighting war time apparatus and more life boats than is necessary for the accommodation of all aboard. There were several liners within a hundred miles of her when she sent her message, and the sea was calm.

ILLINOIS SESSION DELAYED

Dunne Defers Calling Legislature for Extra Appropriation Work.

Chicago, Nov. 9.—Governor Dunne will defer for a week or longer the convening of the legislature in special session. Word from Springfield was that the presence of the Odd Fellows' convention at the capital next week has led to an alteration in the governor's plans, and that, instead of assembling the lawmakers next Monday he will not call the special session before Monday, Nov. 22.

In framing the call the governor may leave out some of the items knocked out by the supreme court in upholding one of the Ferguson injunction suits attacking legislative appropriations.

Vesey, chief of police, pleaded guilty in circuit court here to extortion in the levying and collection of fees in police courts and was fined \$25 and costs and sent to jail for five days. Vesey was forced to resign his office as the result of wholesale prosecutions of Elkhart township and Goshen city officials.

In consideration of the Rev. John A. Wood, eighty years old and a Christian church minister, resigning as justice of peace, two extortion cases against him were dismissed. M. M. Galentin, seventy-six years old and formerly a justice, has pleaded guilty to extortion and sentence is pending.

A new session of the grand jury was opened and witnesses were heard against S. Everett Taylor, who was forced to resign as deputy prosecutor. It is expected Taylor will be indicted on extortion charges and that several others will be required to explain their official conduct.

WOMEN SHOULD TAKE WARNING
If the statement made at a New York Assembly of women, that healthy American women are so rare that they are almost extinct, is true, it is time for the women of America to take warning and look to their health. It may be headaches, back aches, dragging down pains, nervousness, mental depression that are tell-tale symptoms of some organic derangement for which Lydia E. Pinkham's Vegetable Compound—a simple remedy made from roots and herbs—is a specific, and may be relied upon to restore women to a healthy, normal condition.

Better Cake and Biscuits

In all receipts calling for baking powder, use Royal Baking Powder. Better and finer food will be the result, and you will safeguard it against a possible dangerous compound.

Look out for adulterated baking powders. Do not permit them to come into your house under any consideration. They may add an injurious substance to your food, destroying in part its digestibility. Doctors will tell you this and it is unquestionable.

Housewives are sometimes led to use inferior baking powders because of deceptive foaming or boiling tests or apparent lower cost, but there is very little difference in practical use, about one cent for a whole cake or pan of biscuits—a mere trifle when you consider the vast difference in healthfulness in favor of food made with Royal Baking Powder.

TRY THIS IF HAIR STARTS FALLING

Some Good Advice For Those Who Are Threatened With Baldness

At this season of the year many people find their hair coming out at an alarming rate and often fear baldness. This may very easily be the ultimate result if proper scalp treatment is not taken at once. All excessive loss of hair can be almost immediately stopped by the use of twice daily of a little Parisian Sage which invigorates and nourishes the slowly dying hair roots into a renewal of healthy, normal action. New hair quickly grows on the thin spots, old hair stops falling and the difference is apparent in a few days by the look of the hair itself taking on new life, lustre and beauty. Parisian Sage can be obtained from Rowland Bros. or any good druggist. It is not expensive.

Barber-Barber

A wedding ceremonial uniting two sons of one of the most prominent and influential families of Polo, the Barber family, will occur this evening, when at 6 o'clock, Albert Harris Barber, son of Mrs. Mary Barber, takes as his bride, Lucia R. Barber, his cousin thrice removed and a daughter of Mrs. Henry Barber. The ceremony will take place at the residence of the bride's mother and will be one of the most beautiful and elaborate wedding of the year. Rev. Luke Stewart of the Polo Presbyterian church will read the service. The music before and after the ceremony, and during the reception given at 8 o'clock to friends residing in Polo, will be rendered by the Marquette orchestra of Dixon.

The wedding will be witnessed by relatives and dear friends and a great many guests will be present from Chicago, as well as from Oak Park, Ottawa, and Brookline, Mass. The caterer at the buffet dinner given after the ceremony will be Mrs. Gustavson of Rockford.

Buckbee, the Rockford florist, has been busy the greater part of the day arranging the floral decorations. Chrysanthemums, pink, white, and yellow, and ferns and smilax have tastefully disposed about the house, different color combinations being used in the different rooms. Pink and white were used in the drawing room where the ceremonial is to take place.

The members of the wedding party are the bride's mother, who will give her daughter away; a sister of the bride, Miss Mary Barber, who will be maid of honor; Miss Persis Pratt of Brookline, Mass., a friend of the bride who will serve as bridesmaid; George Mix of Oregon, who will act as ribbon bearer; the ribbon holders, Mr. and Mrs. Gillette of Aurora, Miss Ella Mix of Oregon, Miss Aileen Marley and Miss Mary Bruno and Philip Barber of Chicago; and the groom's brother, Luther Barber who will serve as best man.

As a prelude to the ceremony the Marquette orchestra will play Moskowski's "Serenade;" "The Rosary" ("Transcription), Nevin; the sextet from Lucia by Donizetti as a particular compliment to the bride; "I Love You Truly," Bond; and the Bridal Chorus from Wagner's Lohengrin. After the reading of the marriage service Mendelssohn's Wedding March, an overture from Verdi's "Il Trovatore," Elgar's "Salut d'Amour," "The Secret," by Gauthier and "A Perfect Day," by Bond will be rendered. Various numbers will be played at the reception late in the evening.

The bride's wedding gown will be of white satin with silver lace trimmings. Her maid of honor will wear a gown of orchid silk with white lace. Pink and blue silk veiled in white, will compose the costume of Miss Pratt, the bridesmaid. The bride's traveling suit will be of dark blue trimmed with black lynx fur and hat in keeping.

Mr. Barber is president of the A. H. Barber Creamery Supply Co. of Chicago, and upon the return from six weeks to be spent in California, Mr. and Mrs. Barber will make their home in that city on Woodlawn avenue.

The bride of this evening is a talented young woman of high education, a graduate of the Polo high school and of Smith college in the class of 1912, and has taken post graduate work in the University of Chicago.

Household Economy

How to Have the Best Cough Remedy, and Save \$2 by Making It at Home

Cough medicines, as a rule contain a large quantity of plain syrup. A pint of granulated sugar with 1/2 pint of warm water, stirred for 2 minutes, gives you as good syrup, as money can buy.

Then get from your druggist 2 1/2 ounces Pinex (50 cents worth), pour into a pint bottle and fill the bottle with sugar syrup. This gives you, at a cost of only 54 cents, a full pint of really better cough syrup than you could buy ready made for \$2.50—a clear saving of nearly \$2. Full directions with Pinex. It keeps perfectly and tastes good.

It takes hold of the usual cough or chest cold at once and conquers it in 24 hours. Splendid for whooping cough, bronchitis and winter coughs.

It's truly astonishing how quickly it loosens the dry, hoarse or tight cough and heals and soothes the inflamed membranes in the case of a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with quaiacul, and has been used for generations to heal inflamed membranes of the throat and chest.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

REPUBLICAN PRESIDENTIAL MATERIAL.

If during the preliminary or pre-convention presidential campaign of 1916 in the United States discussion in this newspaper and in other quarters shall seem to settle upon republican activities and republican candidates, a reason for it will not be hard to find. Taking the situation as it exists today, so far as it is humanely possible to venture upon prediction, Woodrow Wilson, the present incumbent, will be the all but unanimous choice of the democratic party. While this will greatly simplify matters for that party, and be none the less satisfying for its simplicity to the president and his friends and followers and to the party leaders as well, it will rather detract from than add to public interest in democratic national politics during the months preceding the conventions and nominations. We do not believe any doubt is entertained now as to the acceptance of the nomination for a second term by Mr. Wilson, provided that it shall be tendered him with practical unanimity. And we see no reason at this writing to doubt its coming to him in a manner that will compel its acceptance, says the Christian Science Monitor.

This, we take it, will explain why between the present time and the early summer of next year, conjecture, speculation, uncertainty—all the elements that combine to awaken concern and to develop interest in the thought of the average man, woman and child—will be concentrated, in the main, upon the movements on the republican side. On the democratic side, to put it briefly and plainly, only one thing seems probable; on the republican side everything seems possible. Perhaps there never was a time in the history of the republican party when the field was so wide open to all comers as it is today. The only time comparable with it was the period between 1856 and 1860 when, with talented leadership in plenty to draw upon, it waited for the appearance of a genius, and did not wait in vain.

Already, those in whose custody lies the keeping of the republican organization are looking carefully over the ground in the hope of finding among the list of availables one strong enough not only to defeat Woodrow Wilson at the polls, but, in the event of his election, one who will be positive, partisan and big enough to direct and accomplish from the White House the overthrow of democratic policies. A figure-head is the least wanted of all things by the national republican party at this time. Positive democracy is far more acceptable to the rank and file of that party than negative, apologetic, compromising republicans. Individual records are to be scanned more closely by the republican party this year, from all appearances, than at any other time since slavery was the issue. Those who have attained to prominence or eminence in recent years at the expense of their party's prestige and prosperity, unless all signs are deceptive, will be first to fall in the process of elimination. The first to be considered as eligible to highest consideration, apparently, are those whose conduct through the long and trying period of dissent, revolt, reform and progressivism can be squared with the conduct of the leaders who gave the party forty years of almost uninterrupted power between the times of Lincoln and Wilson.

There is no lack of presidential material, or "timber," in the republican party today, taking the available supply as it appears to the ordinary student of American politics. There are fewer "favorite sons" than usual in the states this year, but as the eye sweeps the horizon from ocean to ocean it is not impossible to discern a number of figures of the class in which presidential "possibilities" are found. These are the figures of able men, successful men, clean men. Doubtless not one among them would bring moral discredit down upon his party or his country if elevated to the most exalted station in the republic. On personal and broad political grounds the republican array of availables is something for the country to be proud of. There are two former presidents, Theodore Roosevelt and William Howard Taft, and one former Vice President, Charles Warren Fairbanks, in the list. There are governors and former governors, Frank Bartlette Willis of Ohio, Charles S. Whitman of New York, Herbert S. Hadley of Missouri. There are senators and former senators, William E. Borah of Idaho, John W. Weeks of Massachusetts, William Alden Smith of Michigan, Lawrence Y. Sherman of Illinois, Albert B. Cummins of Iowa, Elihu Root of New York. There is a justice of the supreme court, Charles E. Hughes, whose name persists regardless of repeated refusals upon the jurist's part to be considered an aspirant. And there is a former ambassador to France, Myron T. Herrick. These are not all, by any means. When the next republican national convention shall be called to order the number of "possibilities" will probably be multiplied, and there will be "dark horses."

It is not within the range of man's vision to see what the choice of the republican party shall be next summer. It is only possible intelligently to surmise what it will be. From an entirely non-partisan, impartial survey of the field, we are confident that conditions which obtained very largely in the republican party after the defeat of William Howard Taft in 1912, that were still present and powerfully operative three years ago, and down even to two years ago, do not exist today; that some of the things in the Taft administration that spelled weakness in the popular eye spell strength now; that the republican party is about to enter the campaign of 1916 along traditional lines—call them reactionary if you please—and that it is looking for a man who will oppose federal interference with individual effort, governmental supervision of private industry, government interference in the shipping trade, tampering and tinkering with a protective tariff—who will set himself against income taxes and war taxes and practically against everything favored, especially along economic lines, by the platform upon which Woodrow Wilson was elected.

THE GOOD FELLOWS WILL BE "ON THE JOB."

The Telegraph Good Fellow club will be as active as ever this winter and as Christmas approaches nearer will begin to stir around and endeavor to carry on the same good work that it has accomplished in the past.

In all probability the money raising campaign will be started with a dance and tickets will be offered to everyone, in the hopes of raising enough money in one stroke to carry on the Christmas campaign. The weather has been kind to the poor this fall and no great amount of suffering has been brought to our attention as yet, but Indian Summer cannot last forever and with the coming of real winter, with its biting winds, its sickness and suffering, the Goodfellows will have plenty of field to work. Consider yourself a member of the Goodfellow club. We'll call on you later for your dues.

Baking Helps

Valuable Suggestions

By Mrs. Nevada Briggs, Exponent of the Art of Baking, as taught by Mrs. Janet McKenzie Pitt

Helpful Cake Making Hints

Always sift flour and K C Baking Powder at least three times. The more sifting, the lighter the cake. Remember that! To cream butter and sugar quickly, warm the sugar slightly. Beat yolks of eggs with rotary beater. Whip whites of eggs with flat spoon whip. Water makes lighter cakes; milk makes richer cakes.

To mix a cake, first cream butter and sugar thoroughly, then add yolks, if used. Then alternately add moisture and flour that has been sifted with baking powder and stir until smooth and glossy, adding egg whites after thoroughly mixing.

Always use K C Baking Powder. Biscuit Helps

Always sift flour and K C Baking Powder at least three times.

Have shortening cold and firm. Mix dough as soft as it can be handled. The softer dough goes into the oven, the lighter the biscuit when it comes out. It is easier for K C Baking Powder to do its work in soft than in stiff dough. Mix biscuits very little. Do not knead. Stir up with spoon or knife and press in shape to roll on floured board.

With K C Baking Powder results are sure and certain. Ask your grocer for K C.

BULGARS ANNEX PART OF SERBIA

Flag Hoisted Forever Over Nish,
Winning General Wires.

GERMANS KEEPING UP GAIN

Anglo-French Force, However, is Pressing Enemy Hard in Desperate Fighting in the South—King Peter Near Capture—Greek Crisis Gets More Acute.

London, Nov. 9.—Formal announcement of the annexation of south and southwestern Serbia by Bulgaria is expected at any moment. Messages exchanged between Czar Ferdinand of Bulgaria, Premier Radoslavoff and the commander of the army that took Nish announce the actual annexation of the conquered territory. It is believed the Teutonic allies plan the dismemberment of Serbia, part to go to Bulgaria, the rest to Austria-Hungary.

General J. Ecoff, conqueror of Nish, telegraphed to the premier: "After fierce and sanguinary fighting the fortress of Nish has been conquered by our brave, victorious troops and the Bulgarian flag has been hoisted to remain forever."

In Honor of Dynasty.
The premier replied: "The capture of Nish, where the national flag will wave forever in honor of the emperor and the dynasty and to the glory of our brave Bulgarian soldiers, has afforded great joy to me and my colleagues."

Czar Ferdinand's reply to General Ecoff read: "I congratulate you most sincerely upon the taking of Nish—that chief stronghold of treachery and untruth. God save our troops."

Allies Gain in South.
While the Germans are admittedly making great progress in the north and center, the fighting in the southern part of Serbia and in southwestern Bulgaria favors the allies. The Franco-British line there stretches for sixty miles from near Prilep, Serbia, to a point southeast of Strumitsa, Bulgaria. Where this line crosses the Nish-Saloniki railway heavy fighting is in progress with the Bulgars.

French troops have occupied Kosjak and Tabana Heights and are expected to make a junction with the Serbians operating near by.

More German Gains.
Berlin, Nov. 9.—The Serbian town of Krusevac, on the railroad about fifty miles northwest of Nish, has been occupied by German troops, according to the official statement.

More than 2,000 un wounded Serbians were made prisoners. More than 1,500 wounded were found in the hospitals. There was much booty, says the report.

London, Nov. 9.—Preparations for a new drive in France are believed to be indicated by the violence with which the artillery fighting has been going on for the last few days.

"In the Vosges, in the neighborhood of La Chapelle, there was again very violent petard and hand bomb fighting."

It is asserted, however, that the attacks of the Russians were repulsed with heavy losses to the attacking force in some sectors.

The Russian statement says the Germans were forced to evacuate Olai, southwest of Riga.

20 Holstein Bulls 20

Quarantine regulations have for the past year prevented the shipment of breeding cattle from Illinois to other states, consequently we have accumulated these bulls. We are short of room for younger animals coming on, and must sell these older bulls. They will run in age from 12 months to 24 months. Most of them are by our great herd sires. They are the kind we usually receive from \$300 to \$500 apiece for at private sale. This is a chance of a life time to buy a splendidly bred bull at your own price.

A well bred Holstein bull bred to ordinary cows will produce heifers that on the average will give TWICE as much milk as their mothers. There is an unlimited demand for grade Holstein cows at from \$100 to \$150 apiece.

No investment can be made that will pay such large returns as a good Holstein bull.

Remember we have bred and developed the CHAMPION HEIFER of Illinois. A number of her three-quarter brothers are included in this sale.

Buy good—breed better.

Terms: Cash or six months or one year's time on approved notes bearing 6 per cent interest from date.

ARE YOUR KIDNEYS WELL

MANY DIXON PEOPLE KNOW IMPORTANCE OF HEALTHY KIDNEYS.

The kidneys filter the blood. They work day and night. Well kidneys remove impurities. Weak kidneys allow impurities to multiply.

No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles,

If you are nervous, dizzy or worn out, Begin treating your kidneys at once.

Use a proven kidney remedy. None endorsed like Doan's Kidney Pills.

Recommended by thousands. Proved by Dixon testimony.

W. Walford, blacksmith, Peoria avenue, Dixon, says: "I used to have quite a lot of trouble with my back and kidneys. The kidney secretions were irregular in passage. My back ached, too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action."

(Statement given May 21st, 1912.) NO TROUBLE SINCE. On January 21st 1915, Mr. Walford said: "I have had no kidney trouble at all for the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford had. Foster-Milburn Co., Props., Buffalo, N. Y.

BEST MINNESOTA BARGAIN.

About 625 acres of the best land in this state as smooth as a floor and cut on the north by good river (full of fish), and cut on the south by big ditch, just completed, and this ditch is about eight feet deep and shows the best of good yellow clay clear to the bottom. The top soil is the best black sandy loam to be found in Minnesota. The water is pure, and never-failing well on the place, which is occupied by tenant. This farm is as smooth as the best of the Red River Valley it should not be confused with same, as this is near the highest point of land in the state.

There is fair house and also other buildings with some fenced in pasture and also some field in crop, and all the land desired for crop can be broken with tractor and as this is new land one crop of flax will pay for it at the bargain price of \$25 per acre.

Five thousand dollars cash will handle the deal and it is near direct line to Duluth, which is the best market in the Northwest.
